

HOW ENVIRONMENTALLY FRIENDLY ARE YOU?

IN YOUR HOME

1. Do you and your family recycle? YES NO

2. Which materials do you recycle?

- | | | |
|--|---|--|
| <input type="checkbox"/> paper, cardboard... | <input type="checkbox"/> plastic (bottles, caps...) | <input type="checkbox"/> glass (bottles, jars, glasses..) |
| <input type="checkbox"/> metals (aluminium, iron...) | <input type="checkbox"/> organic waste | <input type="checkbox"/> used batteries |
| <input type="checkbox"/> medications past their expiration date | | <input type="checkbox"/> electronic waste |
| <input type="checkbox"/> used automotive materials(used oil, automotive batteries...) | | <input type="checkbox"/> clothes and shoes |

3. What do you do to help Energy saving in your home?

- we switch the lights off every time we leave a room we have double glazed windows
- we switch TVs and PCs off when unused
- we have Energy efficient household appliances and if we need to replace old appliances with new ones, we look for those which are cheaper to run, after reading the energy saving trust recommended label (A+++, A+ ...)
- we don't have air-conditioners in our home
- we run the washing machine and /or the dishwasher with full loads
- we have replaced all the remaining lights bulbs with energy saving ones
- we turn down the thermostat if it is set too high or we set our timer to make the best of them so as to have a room temperature inferior to 20°
- we avoid putting hot food in the fridge or freezer
- we have installed solar panels (thermal/ photovoltaic ones) on the roof of our home
- we buy as little packaging as possible and choose recyclable containers
- we buy gas free sprays
- we use reusable shopping bags, reducing the use of disposable ones
- we make compost
- Other devices.....
